+20%

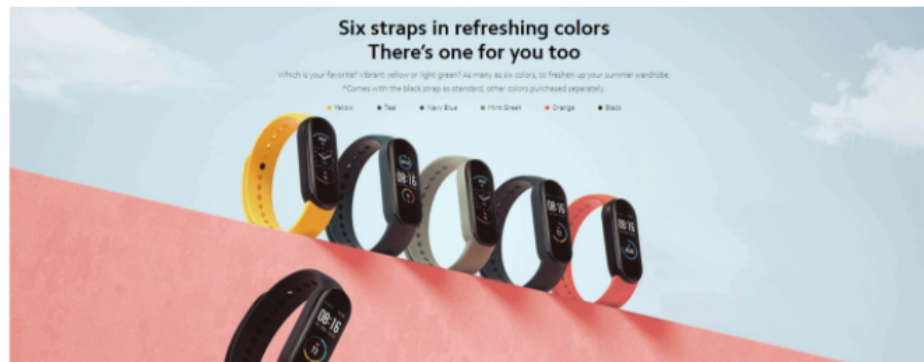

Approximate display area

Six straps in refreshing colors There's one for you too

Which is your favorite? Vibrant yellow or light green? As many as six colors, to freshen-up your summer wardrobe.
*Comes with the black strap as standard, other colors purchased separately.

Yellow • Teal • Navy Blue • Mint Green • Orange • Black

Designed for both indoor and outdoor exercise
Reignite your **[weight loss]**

11 professional sports modes

The more you move, the more weight you lose

Supports yoga, rowing machine, jump rope and more for the first time, accurately monitoring and analyzing every move you make. Monitors and analyzes your heart rate, pace and calories burned to help you reach your weight loss goals.

Fat-burning rowing machine mode

Train 80% of your muscle groups at once

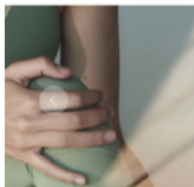

Want to burn body fat fast? This exercise trains almost all of your muscle groups at the same time and accurately records drive time, recovery time and strokes per minute, helping to burn fat fast.

Elliptical mode

Burns fat with minimal impact

The ideal fat-burning choice for those carrying extra pounds that strengthens your lower limbs while minimizing the impact on your knees. Increase the resistance and let's get going!

24-hour smart heart rate monitoring

Notice anything out of the ordinary

Comprehensive upgrades to algorithms and hardware have improved monitoring accuracy by up to 50% for forms of exercise with irregular movements such as cross-country running, climbing, hiking and soccer.

Gets vibrating reminders when your heart rate is unusually high.

PPG biosensors
Up to 50% increased accuracy

Heart rate alerts
Vibrating reminders when heart rate is too high
Example of all-day heart rate monitoring

24-hour sleep monitoring

It's easy to get a good night's sleep

Upgrades to sleep analysis technology have boosted accuracy by another 40%, allowing for professional interpretation of your sleeping patterns, and offers scientific advice to help you quickly improve sleep issues such as insomnia.

- 

Rapid eye movement (REM)
An important sleep stage that allows the body to recover
- 

Naps
Record the quality of naps

Three health modes Helping you to improve your health

- 

Personal activity intelligence
The personal vitality index is calculated using sex, age, heart rate and other data, and gives suggestions for activities that may improve your score.
- 

Stress monitoring
Keeps track of your stress levels and gives suggestions for easing and recovering from stress.
- 

Breathing exercises
Quickly ease your body and mind with a guided breathing exercise of 1-5 minutes duration, following the breathing patterns shown on the display.

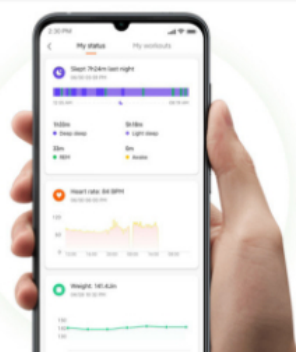

All-new women's health tracking for recording and reminding during the monthly cycle

Records the menstrual cycle and ovulation phases and gives useful reminders beforehand.
The more you use it, the more it understands you.

Mi Fit app, daily health data at your fingertips

Unusual heart rates, sport distances, sleeping issues are individually recorded.

All-new magnetic charging makes charging a 'snap'

14 days

Battery life in normal mode*

20 days

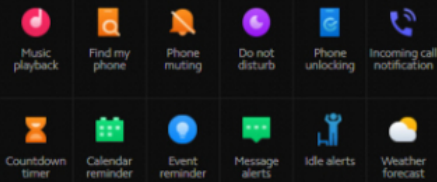

Battery life in power saving mode*

Snap photos remotely with a single click

Taking selfies and group photos just got easier

PRODUCT REVIEWS (39)

so far so good

only that lacks the Sp02 and measures car ride as steps otherwise everything is dope

29-01-2021 by raymond

Verified Purchase

Awesome

Bought one for my mother, she loves it! She's able to monitor her steps and heart rate on a daily basis. Highly recommend it.
